Questions regarding this filing may be directed to my attention at (407) 740-8575.

Please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it in the self-addressed, stamped envelope enclosed for this purpose.

Sincerely,

SYMBOLS

Explanation of Symbols - When changes are made in any tariff sheet, a revised sheet will be issued canceling the tariff sheet affected. Changes will be identified on the revised sheet(s) through the use of the following symbols:

(D) - Delete or Discontinue.

(I) - Change Resulting in an Increase to a Customer's Bill.

(M) - Moved from another Tariff Location.

(N) - New

(R) - Change Resulting in a Reduction to a Customer's Bill.

(T) - Change in Text or Regulation, but No Change in Rate or Charge.

Issued: December 4, 2002

TARIFF FORMAT

A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the ACC. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the ACC follows in their tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.(A).
- 2.1.1.(A).1.
- 2.1.1.(A).1.(a).
- 2.1.1.(A).1.(a).I.
- 2.1.1.(A).1.(a).I.(i).

D. Check Sheets - When a tariff filing is made, an updated check sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages.) The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Arizona Corporation Commission.

2.1.1 General

OSC's services include intrastate operator assisted communications offered via Subscribers' telephones, PBX or similar switch vehicle to Customers for direct transmission of voice telecommunications to locations throughout the State of Arizona. OSC's services are provided through the terminal equipment of Subscribers serving the transient public. OSC may act as the Subscriber's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the Subscriber, to allow connection of a Subscriber's location to OSC's or OSC's underlying carrier's facilities. The Subscriber is responsible for all charges due for such service arrangements.

2.1.2 Limitations

- (A) OSC offers interLATA telecommunications services in Arizona.
- (B) Service is offered subject to the availability of the necessary facilities or equipment, and subject to the provisions of this tariff.
- (C) The Company reserves the right to discontinue service when necessitated by conditions beyond its control, or when the Customer or Subscriber is using the service in violation of the provisions of this tariff, or in violation of the law.

SECTION 2 - RULES AND REGULATIONS, (con't.)

2.1 Undertaking of the Company, (con't)

2.1.2 Limitations, (con't.)

- (D) The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.
- (E) Intrastate Directory Assistance Service is not included in the Company's service offering.
- (F) The Company reserves the right to discontinue service, when any governmental or regulatory condition imposed upon OSC materially and negatively impacts the financial viability of the service as determined by OSC in its best business judgment.

2.2 Use

Services provided under this tariff may be used for any lawful purpose for which the service is technically suited.

2.3 Liability

- 2.3.1 The Company shall not be liable for claim or loss, expense or damage (including indirect, special or consequential damage), for any interruption, delay, error, omission, or defect in any service, facility or transmission provided under this tariff, if caused by any person or entity other than the Company, by any malfunction of any service or facility provided by any other carrier, by an act of God, fire, war, civil disturbance, or act of government, or by any other cause beyond the Company's direct control.

SECTION 2 - RULES AND REGULATIONS, (con't.)

2.3 Liability, (con't.)

2.3.2 The Company shall not be liable for, and shall be fully indemnified and held harmless by Customer and Subscriber against any claim or loss, expense, or damage (including indirect, special or consequential damage) for defamation, libel, slander, invasion, infringement of copyright or patent, unauthorized use of any trademark, tradename or service mark, unfair competition, interference with or misappropriation or violation of any contract, proprietary or creative right, or any other injury to any person, property or entity arising out of the material, data, information, or other content revealed to, transmitted, or used by the Company under this tariff; or for any act or omission of the Customer or Subscriber; or for any personal injury or death of any person caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, presence, use, or removal of equipment or wiring provided by the Company, if not directly caused by negligence of the Company.

2.3.3 The Company shall not be liable for any defacement of or damages to the premises of a Subscriber resulting from the furnishing of service which is not the direct result of the Company's negligence.

2.4 Installation and Termination

Service is installed upon contractual agreement between the Subscriber and the Company. The contractual agreement specifies the terms and conditions of installation, termination of service, commission structure, and commission payment schedule. The service contract does not alter rates specified in the tables and schedules contained in this tariff. Service contracts do not apply to End Users.

SECTION 2 - RULES AND REGULATIONS, (con't.)

2.5 Notice Information

The Company requires Subscribers to post notice on or near each telephone used to access its services. Such notice must include: the Company's name, dialing instructions, an indication that the Company's rates apply, a statement that the calling card carrier will not carry the call, a toll-free telephone number for inquiries, description of complaint procedures, and location-specific surcharges.

2.6 Noncompliance by Subscribers

In instances where the Company finds that a Subscriber is not in compliance with information posting and notice requirements of the Arizona Corporation Commission, the Company will contact the Subscriber and request compliance. If, after the above steps are taken, the Subscriber refuses to comply with the Commission's rules, the Company will discontinue service to the Subscriber.

2.7 Terminal Equipment

Carrier's facilities and service may be used with or terminated in Subscriber provided terminal equipment or Subscriber provided communications systems, such as a PBX or pay telephone. Such terminal equipment shall be furnished and maintained at the expense of the Subscriber, except as otherwise provided. When such terminal equipment is used, the equipment shall comply with the generally accepted minimum protective criteria standards of the telecommunications industry.

SECTION 2 - RULES AND REGULATIONS, (con't.)

2.8 Payment for Service and Credit Allowance

2.8.1 Payment for Service

All charges due by the Customer are payable to any agency duly authorized to receive such payments. The billing agency may be OSC, a local exchange telephone company or credit card company. Terms of payment shall be according to the rules and regulations of the billing agency. Any objection to billed charges should be promptly reported to the Company's billing agent. Adjustments to Customer's bills shall be made to the extent that records are available and circumstances exist which reasonably indicate that such charges are appropriate. OSC shall not cause local service to be terminated for an End User's failure to pay for operator services provided by the Company.

2.8.2 Taxes and Fees

All state and local taxes (e.g., gross receipts tax, sales tax, municipal utilities tax) are not included in the rates under this tariff, but shall be listed as separate line items on the customer's bill.

To the extent that a municipality, other political subdivision or local agency of government, or commission imposes and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, as allowed by law, be billed pro rata to the customer receiving service from the Company within the territorial limits of such municipality, other political subdivision or local agency of government.

Service shall not be subject to taxes for a given taxing jurisdiction if the customer provides the Company with written verification, acceptable to the Company and to the relevant taxing jurisdiction, that the customer has been granted a tax exemption.

The Company may adjust its rates or impose additional rates on its customer to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others. The Company may also adjust its rates or impose additional rates to cover the administrative cost of collecting such charges or paying compensation to other entities. Examples of such programs include, but are not limited to, the Universal Service Fund (USF), the Presubscribed Interexchange Carrier Charge (PICC), and compensation to pay telephone service providers for the use of their pay telephones to access the Company's services.

2.9 Deposits

Deposits are not required to establish service.

SECTION 2 - RULES AND REGULATIONS, (con't.)

2.10 Advance Payments

The Company reserves the right to require an advance payment not to exceed one month's estimated charges. Any such payment will be applied against the next month's charges and, if necessary, a new advance payment may be collected for the next month.

2.11 Third Party Billing

To protect against fraud, OSC reserves the right to refuse to accept third party billed calls at its discretion.

2.12 Access to Other Carriers

Neither the Company nor its Subscribers may block access to other certificated carriers unless a waiver is granted by the Arizona Corporation Commission.

2.13 Access Charges

The Company, either directly or indirectly through its underlying carriers, will pay intrastate access charges for use of local exchange company facilities when completing intrastate Arizona calls.

SECTION 3 - DESCRIPTION OF SERVICES

3.1 General

OSC provide operator assisted calling services. Intrastate service is offered in conjunction with interstate service. For all operator assisted calls, a per-call service charge applies in addition to usage charges.

3.1.1 Timing of Calls

- (A) Long distance usage charges are based on usage of OSC's service.
- (B) No charge applies for incomplete calls.
- (C) OSC's underlying carrier will determine that an initiated call has been answered by signal from the local exchange carrier or other generally accepted industry standards.

SECTION 3 - DESCRIPTION OF SERVICES, (con't.)

3.2 Determination of Mileage

Calls are measured and billed from the point of origination to the point of termination. If calls to be transferred to another carrier cannot be billed from the actual originating and terminating points, the operator will inform the End User and instruct the caller that their preferred carrier may be reached by access code or toll-free customer service number. The method for calculating call mileage is set forth below.

- (A) Calls are measured from the Serving Wire Center of the Subscriber's terminal or switch location to the Serving Wire Center of the destination of the call.
- (B) The distance between the Serving Wire Center of the Subscriber's switch and that of the destination point is calculated by using the "V" and "H" coordinates as defined by local exchange telephone companies in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the Subscriber's switch and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Serving Wire Centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the difference obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the squares obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the Serving Wire Centers.

Formula:

$$\sqrt{\frac{(V_1V_2)^2 + (H_1H_1)^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICES, (con't.)
